

## Key Stage 2 Vocabulary – Geography 4 Year Overview

Key stage 2 long term plan focuses on further developing skills and knowledge from previous key stage. The topics chosen have clear links to the key stage 1 long term plan allowing the opportunity to build on prior learning ensuring a progressive curriculum. Pupils will revisit key language and concepts throughout the years to strengthen recall and support memory. Each area of learning ensures pupils deepen their knowledge of geographical concepts through enquiry and fieldwork. A key focus is around how human and geographical processes interconnect and impact each other. In key stage 2 we continue to develop a strong understanding of the diversity of the people and places of the world. The plan ensures that pupils gain the knowledge and understanding required to prepare them for the next stage of their learning.
